Designed and executed by the

TIFFANY STUDIOS
347 TO 355 MADISON AVENVE
NEW YORK

One of the most artistic and churchly forms of

Memorial Tablets

is constructed of Tiffany Favrile Glass Mosaics, either in its entirety, or in combination with stone, marble, bronze or wood.

While this character of a tablet is no more expensive than that of bronze or carved marbles, it is equally as permanent, more unusual, and represents the individuality of its designer and maker and may be treated in any known colors or tints, to harmonize effectively with its surroundings.

Designed and executed by the

TIFFANY STUDIOS
347 TO 355 MADISON AVENUE
NEW YORK
